AWESOME PROJECT IDEAS FOR DEVELOPERS

SIMPLE PROJECTS IDEAS

**MUKUL
RAJPOOT**

PROJECT IDEAS

Portfolio Website

This is the first website that you should build. Keep it clean and simple.

Personal Blog

After building a portfolio, add a personal blog to your website.

BIG PROJECT IDEAS

**MUKUL
RAJPOOT**

PROJECT IDEAS

Education Apps

Course website/app. Example:

Courses made from Youtube videos.

Provide some features like:

- Doubt Forum
- Project Submission etc

PROJECT IDEAS

OTT (Over-the-top) Platform

Create an OTT Platform like Netflix, Amazon Prime Video, Hotstar, etc.

Ideas:

- You can use Youtube or other free videos on the platform.
- Add ratings and reviews.
- You can add movie trailers instead of full videos.

PROJECT IDEAS

Real-Time Communication

Create a real-time communication tool that can be used for communication or collaboration.

Ideas:

- Chat (1:1 or Group) like WhatsApp, Telegram, Slack, Discord
- Video Calling like Zoom, Conference Calls, YouTube Live

PROJECT IDEAS

Social Media

Build a social media platform like Facebook, Twitter, Instagram, etc.

Doing just the first one is good enough.

- Start with a sharing platform where people can share media (image, video, text, links, etc) with buttons to share them.
- Add a way to like/react.
- Add a way to comment.
- Add a way to follow others or add as friends.

PROJECT IDEAS

Expense/Account Management Ideas:

- Personal Expense Management like Walnut
- Collaborative Expense Management like Splitwise
- Business Account Management like Khatabook

You could read SMS or email for automation.

PROJECT IDEAS

Algorithm Visualizer

This project will generally require you to write a lot of code to create visualizers for different algorithms. Try to create reusable components to do this. This will help you get hands-on with a language and might also help you revise DS/Algo.

PROJECT IDEAS

Matchmaking Application

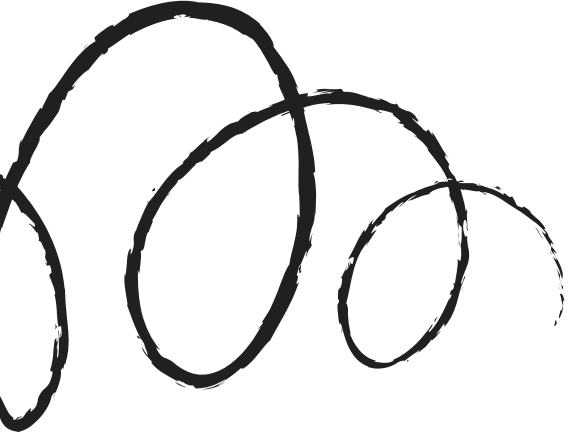

Create a matchmaking app (dating, job-search, etc). Idea: Tinder Clone.

QnA Platform

A community-driven question and answer platform like Quora, StackOverflow, Reddit, Discourse. etc.
