Who can use this color combination?

Contrast Ratio	8.41:1	WCAG Grading

AAA **Regular Vision (Trichromatic)** 🎨
Can distinguish all three primary color, little to no blurriness

AAA **Protanomaly** 🎨
Reduced sensitivity to red - trouble distinguishing reds and greens

AAA **Protanopia** 🎨
Red blind - Can't see reds at all

AAA **Deuteranomaly** 🎨
Reduced sensitivity to green - Trouble distinguishing reds and greens

CSS Ruler

There are 3 types of CSS lengths:

✅ **font relative** is relative to font-size.

✅ **viewport percentage** is relative to viewport size.

✅ **absolute** is a physical measurement.

Update the following values or resize the browser to see how the lengths change:

```
html { font-size:  16  px; }

body { font-size:  16  px; }

.example { width:  1  ; }
```

Content borrowed from MDN.
