WHEN DOES USEEFFECT HOOK RUN?
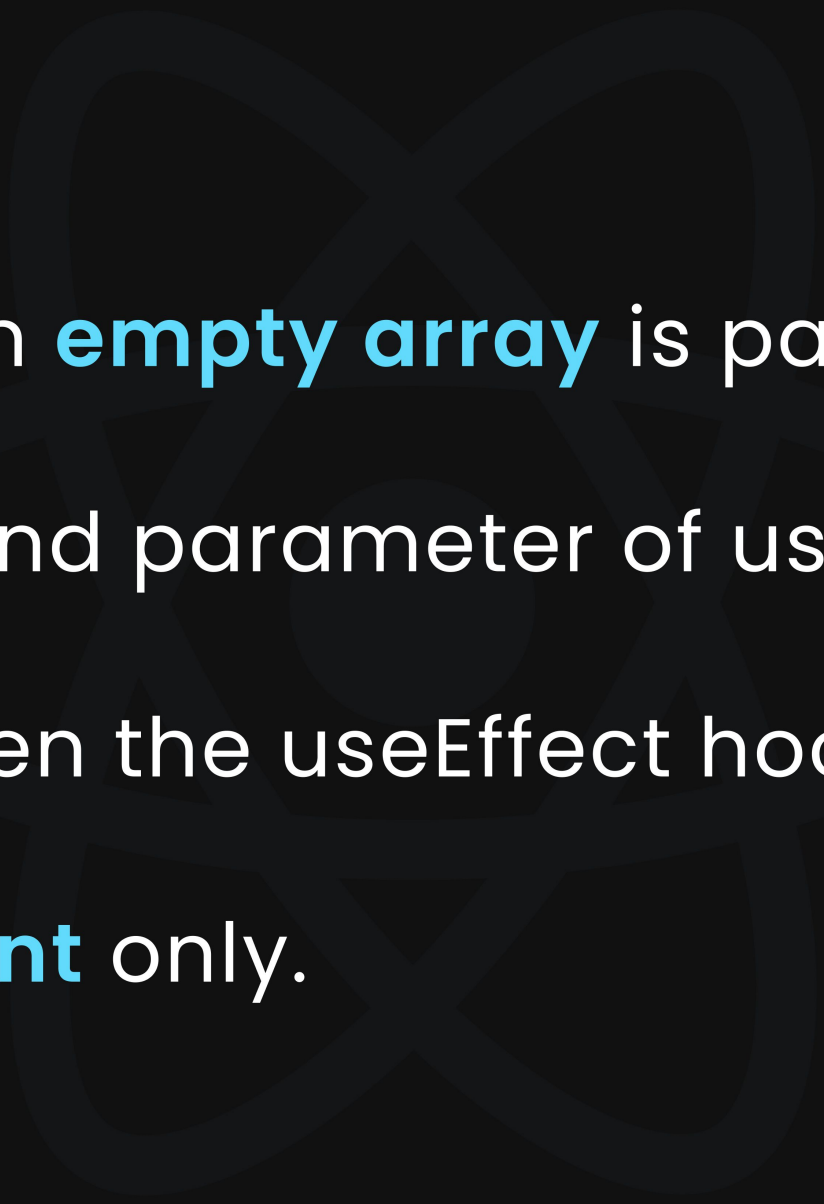

[]

when an **empty array** is passed

as second parameter of useEffect

hook then the useEffect hook runs

on **mount** only.

Swipe

[variable]

When a [variable/state] is passed as second parameter of useEffect hook then the useEffect hook runs only when **that state** changes or on **mount**.

Swipe 👆

No Array

when **no array** is passed as second parameter then the useEffect hook runs on **every state** changes and on **mount** as well.
